

December 6, 2015

Our home buying experiences with Gregory started a few years ago with the purchase of a home in the Ponte Vedra area. He showed tremendous knowledge of the base area and was fully invested in the details of our needs and wants. As out of town clients he was extremely flexible to our schedule and was available on very short notice. When we finally selected our home all items went smoothly and Gregory's knowledge of local inspection and insurance requirements helped us to avoid some costly mistakes. We used remote closing and his efforts made those transactions worry free.

Fast forward a few years, Gregory again was our first choice to get us into the house of our dreams and to sell our existing home. He was always on top of all items and seemed one step ahead, ultimately seeing us through another sale and purchase. When the sale process seemed daunting, Gregory was the optimist and reassured us that everything would work out. From market analysis, contract negotiations, and doing literally whatever it took to get both deals done, Gregory Kush was outstanding in terms of his ability to make it happen!! We felt like family and like we were his only client. We highly recommend this agent and friend for your next real estate transaction. He is truly one of the BEST.
