

March 27, 2016

I have known Gregory Kush for many years and follow his Sunday Kush Report faithfully. He always seems to be “in the know” on what is happening in the real estate market here in northeast Florida. When I decided to downsize my home situation he seemed the likely choice for my Realtor.

Gregory came to my home on a Tuesday morning a few weeks ago. On Wednesday he had a professional photographer come to take pictures. He put the listing in MLS Friday morning and had it sold by Saturday evening. I was afraid this was too good to be true.

Gregory monitored the closing process diligently making sure there were no problems with buyer financing or any unexpected surprises at closing. As promised, we closed within 45 days. The whole transaction couldn't have been more effortless.

I never expected the house to sell in two days so I am renting now while perusing my options. I will probably be looking for a smaller house to purchase in the near future and will certainly ask Gregory if he would be my Realtor in that search. I was very impressed with his diligence and professionalism.

Sincerely,
Mary Ellen Russell
